

5 REASONS TO TRY

TheraBase™ Dual-Cured

Self-Adhesive Calcium Releasing Base/Liner

Rx Only

1 Releases and Recharges Calcium and Fluoride

Continuous release of calcium and fluoride ions.¹

2 Alkaline pH

Generates an alkaline pH (pH=11*) in minutes, which promotes pulp vitality.²

3 High Compressive Strength

When compared to Glass Ionomer and Resin-modified glass ionomers, Therabase has greater compressive strength, which will provide a stronger foundation for direct composite restorations.

4 Contains MDP

Contains the adhesion promoting monomer MDP, ensuring reliable and optimal bond to dentin.³

5 Radiopaque

Allows for easy identification on radiographs and effective diagnosis.
